Honorable Allen W. Dulles
Director of Central Intelligence
Central Intelligence Agency
Washington 25, D. C.

Dear Mr. Dulles:

I have been requested to ascertain your reasons for directing the construction of an electric power line along the George Washington Memorial Parkway west from the Central Intelligence Agency to the Chantilly Airport.

I am told a more direct route would be to follow the new Route 123 or Pimmit Run and that the engineers of the Virginia Electric Power Company do not agree with the route selected.

Please let me have a summary of the factors involved in this phase of your construction and the reasons for your decision. If convenient, please furnish a rough map showing the full route of the line.

Thanking you, I am

Sincerely,

Joel T. Broyhill, M.C.
